

Project Description

The West Gate Tunnel Project began construction in 2020 and is a major infrastructure project in Melbourne. It involves a 6.5km toll road, including 2.8km of tunnels under the Yarra River. The project aims to reduce congestion, improve traffic flow, and provide a direct link between the Western suburbs and the Port of Melbourne. It also includes new bridges and road upgrades to enhance travel times and freight efficiency.

Clients

CPB Contractors John Holland
Joint Venture

JAGCON Group Role
