

### Project Description

The WestConnex Rozelle Interchange consists of a 17 kilometre network of tunnels functioning as a new underground motorway interchange which provides connectivity to the M4-M5 Link Tunnels, the new M8 tunnels and the City West Link.

The interchange also provides an underground bypass of the congested Victoria Road between the Iron Cove Bridge and the Anzac Bridge, and a stub connection to the future Western Harbour Tunnel.

### Clients

John Holland CPB Contractors  
Joint Venture

### JAGCON Group Role

JAGCON Group worked with the John Holland CPB Contractors Joint Venture (JHCPBJV) providing digital engineering and construction methods support throughout the lifecycle of the project.

#### Project Delivery Roles:

- Senior Tunnelling Drafter
- Methods and Planning Designer - Surface Works

#### Project Services:

- Digital Engineering
- Planning & Constructability

### Project Value

\$3.9 Billion

### Sector

Tunnelling, Transport, **Roads**,  
Infrastructure, Major Civil  
Works, Major Projects, **Bridges**
