

Melbourne, VIC

Project Description

The North East Link is Victoria's largest road infrastructure project, designed to complete Melbourne's missing freeway connection between the M80 Ring Road and the Eastern Freeway. The project includes a 6.5-kilometer twin tunnel, major upgrades to the Eastern Freeway, and new dedicated bus lanes. Construction is well underway, with tunneling starting in 2024 and completion planned for 2028. The project aims to reduce congestion, improve freight efficiency, and cut travel times, benefiting thousands of commuters and businesses.

Clients

Spark Consortium

JAGCON Group Role

JAGCON Group worked with Spark Consortium on this project providing digital engineering and construction methods support throughout the lifecycle of the project.

Project Delivery Roles:

- Methods and Planning Designer

Project Services:

- Digital Engineering
- Planning & Constructability

Project Value

\$11.1 Billion

Sector

Tunnelling, Transport, Roads, Infrastructure, Major Civil Works, Major Projects
